EXECUTIVE TECHNOLOGY CV

RICARDO PINHEIRO

BUSINESS SYSTEMS LEAD ANALYST | SALESFORCE DEVELOPER

Business Systems Lead Analyst and Salesforce developer with six years of experience designing, evolving and governing CRM and business systems. Combines hands-on Apex, Lightning Web Components and integration expertise with requirements analysis, solution design, stakeholder coordination and delivery leadership. Six Salesforce certifications spanning administration, development, architecture and AI/Agentforce.

PROFESSIONAL EXPERIENCE

Business Systems Lead Analyst

Zimmer Biomet | Full-time | Jul 2026–Present

- Lead the analysis and implementation of business systems improvements, translating complex operational requirements into scalable Salesforce and CRM solutions.
- Coordinate business stakeholders and technical teams from discovery through implementation and validation.
- Guide solution design, integration and lifecycle decisions, focusing on sustainability, reliability and measurable business value.
- Support cross-functional delivery, problem-solving and continuous improvement across Salesforce and integrated systems.

CRM & Systems Software Engineer

Zimmer Biomet | Full-time | Aug 2023–Jun 2026 | Portugal

- Developed and optimised Salesforce applications tailored to global business needs.
- Implemented solutions with Apex, Lightning Web Components and third-party platform integrations.
- Evolved existing systems with a focus on scalability, performance and long-term sustainability.
- Collaborated with multidisciplinary teams to simplify processes, solve complex problems and improve the user experience.

EXPERIENCE & CREDENTIALS

EARLIER EXPERIENCE

Salesforce Developer

Step Ahead Consulting | Full-time | Apr 2021–Aug 2023 | Lisbon, Portugal

- Developed custom Salesforce applications with Apex, Visualforce and Lightning Components.
- Designed and implemented integrations using REST, SOAP and Bulk API.
- Created reports and dashboards aligned with customer needs.
- Collaborated with multidisciplinary teams on requirements analysis, implementation and support.
- Maintained and evolved Salesforce applications, including AppExchange-oriented solutions.

Oracle Apex Consultant

Step Ahead Consulting | Full-time | Aug 2020–Mar 2021 | Lisbon, Portugal

- Developed enterprise applications with Oracle APEX.
- Produced operational reports with JasperReports and Oracle Report Builder.
- Maintained Oracle databases and supported the reliability and performance of existing systems.

SELECTED PROJECTS

AI-Assisted Indie Game Development

2026–PRESENT

Independent game development using Godot and an agent-assisted studio workflow. Coordinate specialised Codex agents and reusable skills across isolated GitHub repositories, with structured planning, code review, automated validation, build checks and gated release workflows.

STACKOUT – Math Blocks — mobile number puzzle.

Magnet Bloom — portrait polarity puzzle.

BUZZ Math Challenge — released.
